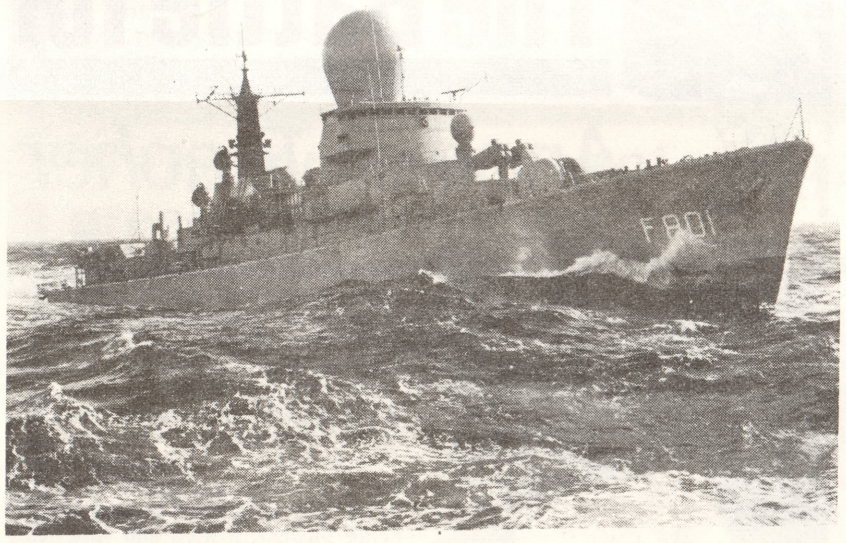
# NO DEFENCE FOR BRITAIN

**THE GOVERNMENT HAS now ditched its own inadequate target for the Royal Navy of maintaining a force of just FIFTY frigates and destroyers. Our conventional surface fleet is to be sacrificed so that American Cruise missiles can be stationed in Britain at British expense and so that American Trident missiles can be put into British submarines, again at our expense.**

Even with Britain's current reduced commitments a surface fleet of fity vessels is barely adequate to defend our shores and to maintain the defences of the Falkland Islands. At present there are fifty-three such vessels in the Navy but three of these are to be withdrawn immediately and this figure is only to be kept up by keeping vessels in operation beyond their normal lifespan.

Most naval officers would regard 22 years as the maximum lifespan of a frigate or destroyer, yet vessels are now being kept in the Navy for upto 26 years. But even with this extension of life the Government is not building ships to maintain this minimum surface fleet. In order to keep to this figure of fifty they would have to order 17 new ships within the next six years as well as replacing any that are lost in action. In the last six years it has ordered just nine and four of these are to replace ships lost in action in the Falkland Islands.

The new government White Paper states that the Government is still committed to this figure of fifty ships but makes no attempt to explain how this is to be done, and makes no definite commitment to building three new £120 million Type 23 frigates each year which would be needed to achieve this.



**The National Front demands that Britain must have the ability to defend her people against aggression.**

## CUTBACKS

As well as a lack of ships the Defence cut-backs have been placing an increasing strain on our sailors. They are now expected to spend a much longer time at sea on operations, leaving less time for training. When their ship has to be repaired in dry dock this is now frequently well away from their home port, because the Navy has been closing down its own repair yards.

One other factor that has been seen in the American Navy but which until recently was thought not to effect the Royal Navy is the competence of sailors. It has been a fact of life on large American Navy ships for some time that muggings and other racial attacks are a regular occurrence. It is surely no coincidence that this began when the American Navy started to take large numbers of Black sailors.

## STABBED

While only a tiny minority of British sailors are Black the number is growing and must give cause for concern. In one incident at the end of last year a Royal Marine Officer, Lieutenant Andrew Quinlan, was stabbed in the heart by a Jamaican fellow sailor on a commando training course, after making what is described as a "racially offensive remark".

The Navy is well known for the nick-names that are given to sailors: "lofty", "chalky", "spike", etc. but you don't expect to be stabbed when you call someone by their nickname. The question must also be asked as to whether the ineffeciency and incompetence that has become endemic in the American Navy is now starting to subvert the Royal Navy.

In addition to this large numbers of experienced officers and sailors are leaving the Navy for better paid jobs, especially since the 60% cuts in overseas allowances announced a few weeks ago by Michael Heseltine.

Britain no longer has nor wants a role as the world's policemen, but we do demand the ability to defend ourselves and our people against aggression. What is the point in having an American nuclear force stationed in Britain when we cannot even deter a medium sized nation with our conventional forces.

The Conservatives are always boasting about their record on defence, but their run-down of our once great navy is not just incompetent, it is a betrayal of our country and the millions of men who have died over many generations defending our homeland against foreign aggression.

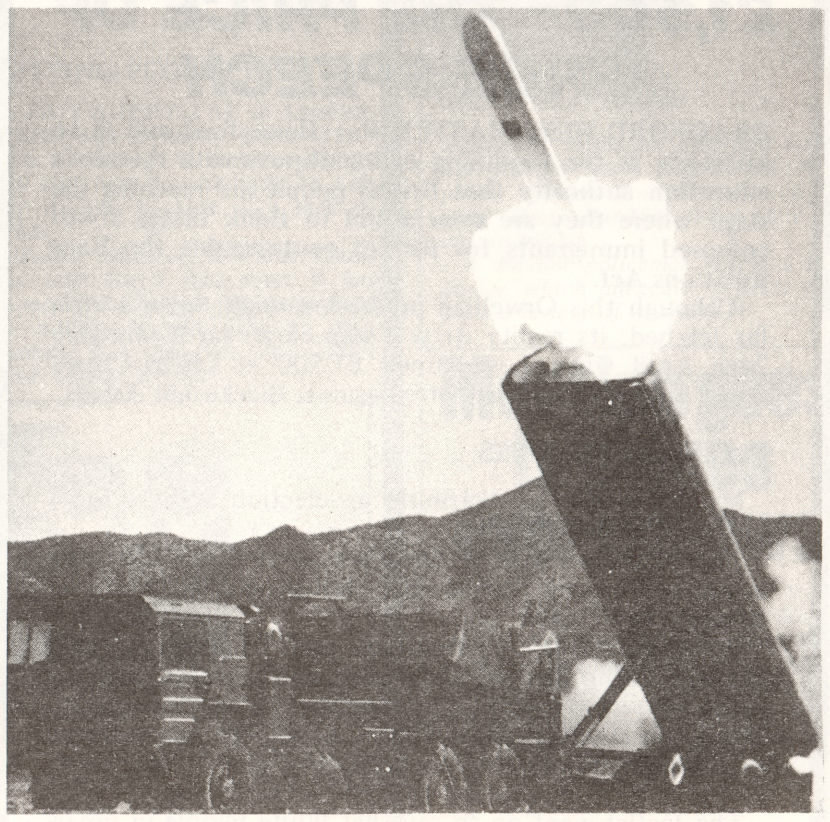
## QUOTE OF THE MONTH

*"MRS THATCHER has done more to damage Britain's merchant fleet than Hitler's U-Boats.*

*Hitler's U-Boats, mines and aircraft reduced the size of our fleet by just a third in six years of horrific war.*

*Mrs Thatcher's policies have nearly halved the number of ships in the fleet over the same period".*

**Seamen's leader Jim Slater giving his reasons for boycotting the V.E. Day celebrations.**



**Cruise: Highly vulnerable to conventional bombardment.**

# We're just America's poodle saddled with USELESS MISSILES

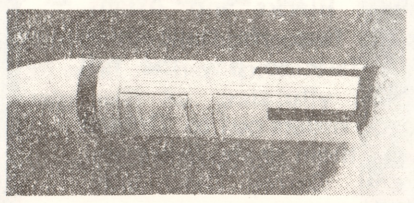
**MRS THATCHER, OUR so-called Modern Day Boadicea has tied Britain to an America run by the most grotesquely incompetent President the World has ever seen.**

She has done it in such a way that, apart from the immediate cost in terms of money and lost jobs, Britain will lose the ability to regain its independence for many years to come.

The total cash cost of the Trident and Cruise missile system is expected to be about £20,000 million pounds, about double the original estimate. Having spent all this money it is only reasonable to ask what we are getting for it. The answer is shocking in the extreme:

## CRUISE

1) A missile system that cannot be used without American approval.
2) A missile system that can be used by the Americans without Britain's agreement.
3) Britain was told that British firms would be given some preference in supplying some of the components needed. This has not happened.
4) Many defence experts have declared Cruise to be useless as a defensive weapon, with some regarding it solely as a "first-strike" weapon.
5) Cruise is highly vulnerable to the sort of conventional bombardment that might be expected to preceed any decision to turn a war into a nuclear conflagration.



*Trident: Requires American Repairs.*

## TRIDENT

1) In theory Trident is a *"British independent deterrent"*, however the technology which is needed to maintain and repair it is American and they refuse to share it with us.
2) As a result of buying Trident, the rest of the Royal Navy is to suffer major crippling cut-backs.
3) All British research work aimed at building a truly British nuclear deterrent has halted.

## TIME AFTER TIME

Thatcher's blind subservience to America is even more incredible when you look at their record. Time after time Britain has agreed to scrap its own research and development in order to purchase American defence equipment only to be told subsequently that the Americans have cancelled their project. It happened with the American Skybolt missile back in 1962 and it has already happened with the Trident 1 missile system which Britain originally agreed to buy and with which the American Navy is already equipped.

**In contrast to this France has a truly independent nuclear deterrent, designed in France, built in France and controlled by France. It is based on land, submarine and aircraft. It is not designed to wipe out the world, it is designed to be a deterrent to any potential aggressor. If the French can do it then why can't Britain?**

# £1,500 - THE PRICE OF FREE SPEECH

**BRADFORD HEADMASTER Ray Honeyford said in an interview at the beginning of his dispute with the city's education authority that British people are reaching the stage where they are even afraid to think things about coloured immigrants for fear of contravening the Race Relations Act.**

Although this Orwellian prediction might seem a little far fetched, its reality drew a step closer on Wednesday 24th April when I was fined £1,500 at Lewes Crown Court for 'inciting racial hatred against Blacks and Asians'.

## ELECTION ADDRESS

My crime was to distribute an election address for a borough council election.

This address claimed that 'Blacks and Asians bring strife and decay threatening British culture and the British way of life!'

Remember Brixton, Bradford and Southall between the wars? Who can put their hand on their heart and not agree that these areas have declined since those times. The strife is self evident. The riots of 1981 bear witness to that. Who can honestly say that British culture and the British way of life has not suffered in these areas?

The leaflet went on to say that White people in inner-city areas are scared to go out in day time let alone night for fear of being attacked by gangs of black muggers.

Last year a survey revealed that one in five people living in inner-city areas were afraid to go out at night, while one in ten had concern about leaving home during the day. Scotland Yard figures published in September 1984 revealed that in London 59% of muggers were black, this despite the fact that the coloured immigrants made up only 5% of the total population.

## FREEDOM OF SPEECH

So there you have it. A leaflet put out for an election by the National Front urging the British people to support the NF's policy of stopping immigration, and calling for the return of those immigrants already here to the land of their ethnic origin, is illegal and despite the fact that it tells the truth is subjected to a fine £1,500.

In National Front publications we often talk of a corrupt society. Sometimes its just 'politicking' sometimes its based on hard fact. There can be no doubt that it's a fact that in a country that so often boasts about its 'Freedom of Speech', it is unjust and corrupt for that same society to fine a candidate in an election for exercising that 'free speech'.

**Such actions don't disillusion, weaken or frighten the National Front. Such actions help us. Such actions encourage us. Such action reassures us that what we are fighting against *is* corrupt and evil. It's a society that's in an advanced state of decay where only the maggots and parasites that are feeding off it stop the whole structure from coming crashing down.**

# RED COMPLAINT PUTS FRONT ON DISPLAY

**ACTIONS BY opponents of the National Front in Leighton Buzzard has resulted in *National Front News, Nationalism Today* and *New Nation* being accepted for display in the local library.**

In what it's called the *'war of words'* the *Leighton Herald* announced on March 22nd *"National Front supporters have won the right to display their magazine and newspapers in Leighton Buzzard library"*. This was a mere 10 days after the paper had reported that the same library had destroyed National Front leaflets.

## SHORT VICTORY

Opponents of the Front thought that they had been so clever when telephoning the local papers complaining that some women had been upset by the NF's anti-ritual slaughter leaflet *'Stop This Evil'*. The leaflet had been displayed on the library's information table but after the complaint they were removed by officials and destroyed.

But it was only a short victory celebration for those intent on suppressing the National Front viewpoint. A week after the removal of the leaflet a report was put before Bedfordshire County Council's leisure committee that *"Libraries should be neutral centres of information in which all shades of opinion should be represented. A publication should not be excluded from libraries on moral, religious or racial grounds"*.

The council accepted the findings of the report and the very next day National Front publications were delivered to the library by the Front's treasurer for Leighton Buzzard, Paul Fortune and branch Secretary Richard Bassaley.

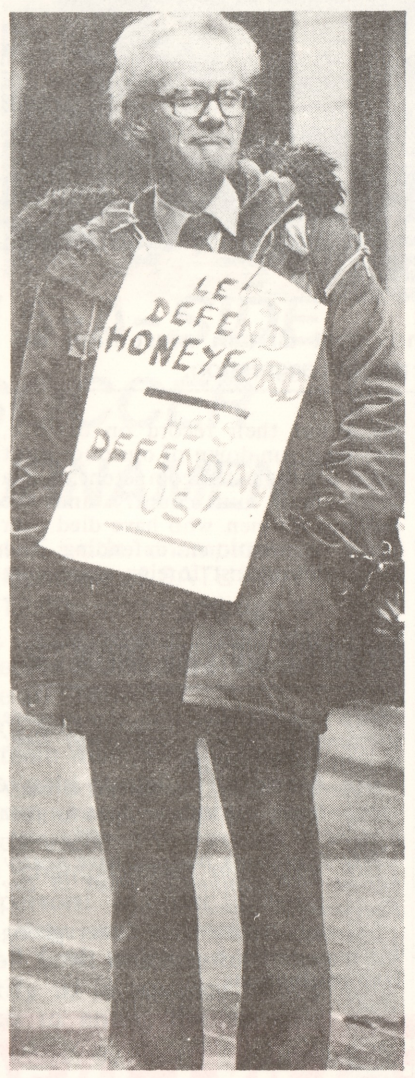
The decision bought the expected howls of protest. Tony Favell secretary of the Leighton and Linsdale District Trades Union Council said, *"We believe that if their publications are displayed it could have an effect on the youth of the town, who are already bitter about unemployment and the lack of local facilities."*

● Local NF Officials Paul Fortune and Richard Baggaley.

**But for the moment the leisure committee is standing firm. Director David Bromley told the Leighton Herald "We are seeking to ensure a political balance".**

# The Battle for Bradford

## *Another Teacher Fights Back*



● Frank Kelly. He organised the petition in support of Ray Honeyford.

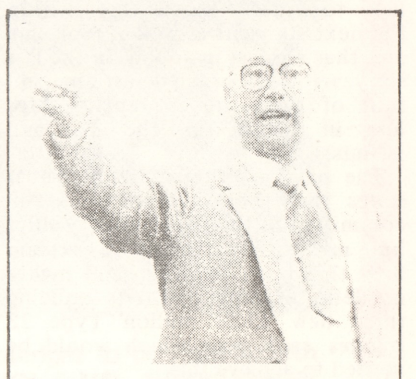
**THE BRITISH people of Bradford are fighting back! Over 6,000 of them flocked to sign a petition in support of Bradford school-teacher Ray Honeyford who has been removed from his post as headmaster of Drummond Middle School after claiming that multi-racial education harms white pupils.**

Organising the petition signing in Bradford's Arndale Centre was Frank Kelly who stood his ground despite being pushed, jostled and spat at by a large gang of Asians accompanied by a few renegade Whites. Police had to be called in to safeguard those people who wished to sign the petition. Frank Kelly told the *Bradford Telegraph and Argus, "Mr Honeyford is a man fighting for the British people".*

## CONTESTED

Another man fighting for the British people of Bradford is also a former headmaster, he's Stanley Clayton-Garnett. Campaigning on *"protecting the rights of the indigenous white population"*, Mr. Clayton-Garnett contested a West Yorkshire County Council by-election on April 17th. Despite having his election meeting broken up by gangs of Asian thugs, together with his small band of dedicated followers, Mr Clayton-Garnett fought a hard campaign. What a pity that their effort was handicapped by the so-called 'leader' of their political grouping appearing in the *Daily Mirror* on the Monday before polling day dressed in a 'German-style' uniform posing before a picture of Adolf Hitler.

No doubt Mr Clayton-Garnett had a job explaining that away to the patriotic voters of Bradford.



● Stanley Clayton-Garnett.

● SPIRIT OF BRITAIN. Plenty of support for the petition.

# BLACKPOOL HOST DAY OF ACTION

● Front picket at a Kosher Slaughter House in Preston.

*Mike Harris from Blackpool NF and a pantomime cow.*

ON THE 30th March 1985, Blackpool National Front was host to a North-West Day of Action.

Several activities took place with support from Manchester, Liverpool, Blackburn, Accrington, Preston, Oldham and Bolton Branches.

The Day of Action was centred around the theme of Ritual Slaughter and started off with two simultaneous activities in the morning, one at Preston, held outside a Kosher Slaughter house (see photo's), the other a demonstration in St-Annes Town-Centre, where around 5,000 anti-ritual slaughter leaflets were distributed alongside a pantomime cow.

In the afternoon a combined Paper Sale and Ritual Slaughter demonstration was held in Blackpool Town-Centre, again with the aid of the Pantomime Cow, and where around 10,000 anti-Ritual Slaughter leaflets were handed out.

An enjoyable and successful day was rounded off with a meeting in Fleetwood, with speakers including former Blackpool Chairman Alvin Hanson,present Chairman and Local Election Candidate Wilf Smith and Blackpool Elections Officer Mike Harris.

# KNIFE GANGS TERRORISE SOUTH LONDON

CRIMES INVOLVING stabbing and serious physical injuries have reached such high levels in the overwhelmingly Black areas of Brixton and Peckham, in South London, that local hospitals cannot cope. They are being forced to cancel life-saving open heart and cancer operations to deal with the victims of violence.

Dr Robert Ware, head of the intensive care unit at King's College Hospital, Dulwich, revealed on 15th March that they were dealing with at least one stabbing a day – which required major surgery. Dr Ware said: *"The rise in stabbing has taken us unawares. It seems it is becoming the macho thing to carry a knife and the bigger the knife the more macho it is regarded".*

He continued *"Gangs are going round now with eight inch knives and there are not many places in the body where you can push that without causing serious injury. It used to be very rare for us to see direct injuries to the heart but now we are seeing quite a lot".*

Because operating theatres were full with stab victims – or blood supplies were exhausted after treating them – Dr Ware said that they had *"had to cancel major open heart and cancer operations"*, and he noted that the rate of such crimes was rapidly rising. Despite this the Tories are planning to cut back the hospital's facilities to treat their victims. Kings Hospital itself has had to appeal to the public for £1 million worth of equipment it needs.

In one South London estate near Dr Ware's hospital, the London evening newspaper, the *Standard*, revealed a typical reign of terror by what it described as *"Black gangs"*. One man who was interviewed revealed that both his daughters had been sexually assaulted. His young son had been whipped and beaten. His wife had been assaulted and mugged. Two cars had been stolen, his front door burnt down. He had suffered two attempted burglaries and numerous threats of violence.

So while the Black gangs reign of terror in South London goes on all the Tories can do is spend more on building youth centres for those same black gangs, while cutting back on money for the hospitals that treat their victims, and prosecuting, under the Race Act, anyone who does reveal this!

*YNF member Andy Payne being attacked with a Stiletto. The bigger the knife the more macho is it!*

# IS THE R.S.P.C.A. GOING SOFT ON RITUAL SLAUGHTER?

THE NATIONAL Front now appears to be the only organisation prepared to tackle head on the evil practice of Ritual Slaughter.

The RSPCA, who for so long have been at the forefront in the campaign against this barbaric killing, now appear to be equivocating on the issue.

## NOT ALL BAD

During a speech to the Jewish Rep Council in Manchester on Monday April 15th, RSPCA Assistant Chief Veterinary Officer, Mr Alistair Mews is reported as saying 'that he was in no way trying to suggest that "all Shechita (Jewish Ritual Slaughter) is bad" and all conventional slaughter was good'.

Not trying to suggest that all Shecita is bad? What on earth is Mr Mews talking about. All Ritual Slaughter is the same. The throat of the animal is cut while it is fully conscious. It dies a long and agonising death while its blood dranis away. The only thing that might vary is the prayers that are chanted during the whole sick ritual.

● *Mr Mews equivocating over Ritual Slaughter?*

Mr Mews also appears to have sat in his chair and said nothing while Mr Henry Guterman, vice-president of Manchester Jewish Rep Council absurdly claimed that "Due to the speed in which the animals necks were cut, no pain was felt by them and they remained concious for only two seconds".

In his summing up the RSPCA official said "Progress can be made by dialogue not confrontation". They've been saying that for the last forty years in which time over 120 million animals have died in agony. The National Front believes that combating Ritual Slaughter can be done by drawing the attention of the British people to the facts. It's a political issue and must be fought against on a political platform.

● A wreath at the Cenotaph for Britain's 'Forgotten Army'.

# Our 'Forgotten Army' Remembers

On Sunday 28th April, several thousand members of the Burma Star Association held their annual remembrance parade through Whitehall to the Cenotaph where they laid wreaths in memory of those who died in the war in South-East Asia.

The Veterans of the Burma campaign are Britain's *'Forgotten Army'*. Their gallant campaign against the Japanese gets little recognition today while the suffering, torture and deaths of their fallen comrades is conveniently forgotten.

## OFFEND

Conveniently forgotten so as not to offend the new industrial entrepreneurs setting up in Britain who just happen to be Japanese.

In Britain today Japanese Companies are using British workers to make Japanese goods that will put a much larger number of British workers making similar British goods out of work.

**The enemy that those Burma Star Veterans defeated in the jungle forty years ago are now victors in Britain today. What a waste to sacrifice all those fine young men in holding back the yellow hoardes. For Mrs Thatcher and her gang are now letting them into the very heart of Britain enabling them to inflict casualties again on British manhood and achieve one of those goals of forty years ago, the destruction of British industry.**

# Hypocritical Saboteurs !

**MICHAEL FISHWICK is Treasurer of Norwich Branch, National Front. He was also, until recently, an enthusiastic member of the Hunt Saboteurs Association.**

When the HSA discovered that Michael was a leading member of Norwich NF, a fact that he never tried to hide from his former HSA colleagues, he was promptly expelled.

Michael immediately wrote back to the HSA challenging his expulsion. His letter noted that the HSA had acted "unconstitutionally" and asked on what grounds dealings *"with the NF should render someone suitable for expulsion".*

*Michael Fishwick Norwich NF*

He also noted that the HSA seemed to be *"very ignorant about the NF and its aims and beliefs".*

Not surprisingly, the HSA declined to answer Fishy's allegations and simply re-iterated that he had been expelled from the Hunt Saboteurs Association.

## QUESTION

This incident must prompt all radical Nationalists to question the sincerity of groups like the HSA. If the Hunt Saboteurs Association – and other animal welfare organisations – are truly interested in the fight for animal welfare, surely they would welcome anyone and everyone into their ranks, irrespective of that person's political views.

**In condemning the National Front's anti-ritual slaughter stand, and our opposition to all forms of cruelty to animals, the so-called 'animal welfare' groups have seen to be totally hypocritical. Possibly that is the reason why more and more people are joining the National Front's own campaign for animal welfare!**

# YNF ACTION PROMPTS ASSEMBLY DEBATE

**THE DEPUTY headmaster of Light Hall School in Solihull is to make National Front leaflets the subject of a school assembly "to allay the fears of the ethnic children and to put everyone in full possession of the unbiased facts".**

## YNF CAMPAIGN

**The teacher announced the unpresedent step of bringing political debate into the morning assembly after the Birmingham Branch of the National Front had launched their YNF campaign in the city covering schools such as Turves Green in Northfield, Lode Heath, Tudor Grange, Alderbrook and Light Hall in Solihull as well as Solihull College.**

**Birmingham organiser Norman Tomkinson said that the NF's team of youngsters had received a good response and that as well as giving out leaflets had sold a number of copies of** *NF News* **and** *Bulldog.*

# On Reflection with Ted Budden

THE RECENT much recycled scoop in the appalling *Daily Mirror* concerning the youthful activities of Mr Denis Pirie leads me to ask just why this abysmal cretin's comic is not obliged to carry a public health warning.

The fact that Mr Pirie, like many others, once had a juvenile infatuation with things Nazi is no good reason why he should be persecuted in his middle years by malicious muck-rakers whose clear intent is to damage his career.

For strangely enough, although the Communist countries are the ones that are most obviously Britain's enemies, our wonderful free press is most discreet, indeed almost secretive, when it comes to Commies in high places.

When, during the last election some bounder had the temerity to make the point that Denis Healey was a former Communist, the high Tory Daily Telegraph denounced this as a cowardly attack upon an honourable man.

## THE REAL THING

Since then, of course, in the fashion of political chameleons, Healey's nuclear defence posture has lurched far to the left in line with that of the Labour Party. No doubt the Russians might think that if former Commies can serve Russia's interests so well, who needs the real thing. Other, less well disposed, people might suggest that maybe former Communist Healey is not quite so former as all that.

But just think of the reaction if Dennis Healey had been as savagely and scurrilously attacked for his youthful indiscretions as has Denis Pirie.

Oh those howls of *"tyranny"* and *"McCarthyism"* and *"ultra rightist hysteria"*.

I wonder why.

Well, actually, I know why!

THERE HAS been quite a furore recently in scientific and pseudo-scientific circles about the theory proposed by one Dr John Hartung concerning the influence of noses on IQ performance. Dr Hartung suggests that in temperate climates the possessors of long hairy noses have a physical advantage that beneficially affects their IQ's.

## WHITE SUPREMACIST

This has stung a certain Dr P.M. Gaylarde into interpreting this as a snide attack on the short fat hairless and chimpoid noses of negroes and denouncing Dr Hartung as a racialist, white supremacist, *hooterist*.

As the proud possessor of a substantial sniffer of awesome hairiness who happens to be all of those things, I really cannot understand what all the fuss is about. I've always assumed that long noses and intellectual brilliance went together like ham and eggs and that the derisive comments of my short snouted contemporaries were mere indications of deep rooted jealousy.

After all, the traditional dumb blonde is always portrayed as having a small retrousse snoot while the English ruling classes have long been famed for proboscises of truly titanic proportions.

One noticeable aspect of this *conktroversy* is the fact that for the first time in the history of racial dispute the Jews have chosen to nose clear of the whole business.

Can this be modesty? Or are they afraid that the fact that they wear their pound of flesh in the middle of their faces is likely to get up everyone else's nose?

# NF/SOCCER VIOLENCE INQUIRY: After 12 months

Masthead and banner of the National Front magazine

SUNDAY PEOPLE, March 17, 1985

**National Front plotted soccer rioting**

THE ugly influence behind last week's soccer violence at Luton was the National Front.

'DOCTORED'. The front page of *NF News*, 'doctored' in a pathetic attempt to infer the Front promotes soccer violence. The headline and first sentence of the report are allegations made without a shred of evidence!

**THE FULL MASTHEAD AND BANNER OF NF NEWS**

# LIES, INNUENDO AND SLURS

**NEVER, IN THE history of British politics has there been such an orchestrated smear campaign against a British political party. Never in the history of British politics have so many lies, inuendoes and slurs been invented by politicians, newspapers and voices in the establishment against a party that has yet to have elected a single representative.**

The smear campaign is against the National Front. It's a campaign designed not only to discredit the National Front in the eyes of the British people but also to get Thatcher's Tory Government out of a corner. The campaign is to blame the National Front for soccer violence.

It was Labour MP Jack Straw who stumbled on the idea of using the NF as the scapegoat for the increasing problems posed by continued soccer violence. He drew the attention of parliament to the fact that during the England vs France game in the spring of last year, a Blackburn National Front banner had been seen by TV cameras at the game. The match itself was marred by repeated clashes between England supporters and the French police with many injuries and arrests taking place.

Despite the fact that the NF banner was on the opposite side of the ground to where the violence took place, Sports Minister Neil Mc Farlane announced an inquiry into *'The National Front's involvement in soccer violence'*.

## INVESTIGATION

The press had a field day. There wasn't a paper in the country that didn't gleefully announce that the Front was under investigation.

Later in the year during England's South American tour a party of supporters unfurled a Chelsea National Front banner at Montevideo Airport. Again the finger was pointed, *'National Front soccer hooligans'*. Apparently the young supporters weren't involved in any fighting, they didn't break any laws and they weren't any the worse for wear through drink. No they were accused of being soccer hooligans for two reasons. Firstly for claiming that England only beat Brazil 1–0 because a black player scored one of the goals and they didn't recognise that black players were eligible to play for England, and secondly for singing racialist *'ditties'* on the plane coming home.

## BLAMED

So with the media firmly implanting in the public's mind that soccer violence and the National Front go hand in hand it was only to be expected that the mayhem that occurred during the FA cup quarter final replay between Luton and Millwall would be blamed on the National Front; and blamed on the National Front it was, despite the fact that amongst those fans who rioted there were a number of Blacks and despite the fact that when BBC TV went to 'The Den' to interview

Richard Kennard was also a blackmailer; *a particularly beastly one perpetrating a nasty and spiteful blackmail"* according to Judge Jack Abdela, who sentenced him to 12 months in prison at the Old Bailey. Kennard had demanded £5,000 with menaces from a local businessman threatening him and his family with a series of phone calls.

SIX LEFT-wing Euro MP's arrived in Manchester on March 30th to conduct an EEC inquiry into the rise of *'Racism and Fascism'* in Europe.

Amongst the evidence they spent the morning examining was a Young National Front leaflet that had been given out at a number of Manchester schools the week before.

Getting in on the act as usual were 150 representatives of various ethnic minority groups in Greater Manchester. Pandering for the coloured immigrant vote was Labour Euro MP for Central Manchester Edward Newman. He grovellingly announced to the press, *"We used the occasion to learn and gain experience and listen to the points of view of the various ethnic communities"*.

### DOCTORED

Fleet Street took Thatcher's lead. The *Sunday People* on March 17th published a report that was lies, inuendo and smears from start to finish.

LIE ONE. The headline claimed 'National Front plotted soccer rioting'. There is not one shred of evidence in the following text to back up that headline.

LIE TWO. It claimed that the NF News banner heading calls on people to fight. The accompanying artwork show a 'doctored' copy of NF News.

LIE THREE. It claimed 1,500 copies of *Bulldog* were sold outside the Millwall ground every home game. Yet, in reality *Bulldog* hasn't been sold outside Millwall for over 12 months.

LIE FOUR. It claimed "Another headline (in *Bulldog*) urges *'Smash the System'* above a picture of Chelsea fans giving Nazi salutes". In reality the headline refers to an article about Capitalism and Communism while the photo of the Chelsea fans is for an article headed *'The Sun incites soccer violence'*.

Not only was the report intent on smearing the NF in the eyes of the wearing an NF badge.

A few days earlier, on March 21st, Michael Cocks Labour MP for Bristol South had claimed he had electoral evidence of the NF's involvement in soccer violence. (As reported in last month's *NF News*) In the *Liverpool Post*, a report headed 'Soccer Thugs Linked to National Front – MP', carried quotes from two Labour MP's and a Tory but nothing from the National Front. No one even bothered to contact the victim and ask him for his point of view.

### CONTACTED

That is what proves that the National Front has been set up as a scapegoat for soccer violence. Not once during the 12 months of the Sports Ministry's first inquiry into the NF has a single National Front official at any level within the party been contacted with regard to the Front's evidence on the matter.

**The National Front, however, is fighting back. Our media monitoring unit, run by Patrick Harrington, has lodged complaints against all the offending articles with the Press Council. Both *The Times* and *The Guardian* carried articles on the National Front at the beginning of April which portrayed a political party far removed from the 'soccer thug image' promoted by the popular press.**

**Finally *National Front News* has a message for Margaret Thatcher and Neil McFarlane with regard to their inquiries into the NF and football violence, "PUT UP OR SHUT UP".**

# KEEP THE ORKNEYS SAFE – OPPOSE NUCLEAR DUMPING

**THE PEOPLE of the Orkney Islands who defeated plans for uranium mining at a public inquiry in 1979 are preparing for a second battle against nuclear power.**

This time they are worried about proposed research of the sea bed at Stormy Bank – about 16 miles west of the islands – for possible nuclear waste burial sites.

Environmentalists are keeping an eye on moves made by a London-based company, Ensec, which hopes to handle the nuclear waste. Greenpeace and the National Union of Seamen are also concerned about Ensec's proposals.

Recently, in typical high-handed fashion, Lord Newall, Ensec's Chairman, refused to meet the Orkney Islanders who were worried about the health implications of the burial of nuclear waste. In mid-March, local fishermen condemned Ensec's attitude – and repeated their fears about nuclear contamination of the fish in the area.

**Although Ensec seem to be unconcerned about the people of the Orkney's, they now have a fight on their hands in the shape of a number of local Orkney conservation groups.**

**The National Front wishes these organisations every success and echoes their aim of:** *Keep the Orkney's Safe – Oppose Nuclear Dumping At Sea!*

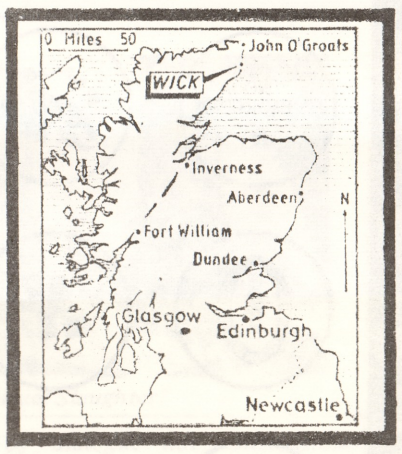
# The Right to Know

PEOPLE IN SCOTLAND were angry over the shock disclosure that nuclear scientists had considered an atomic test over the north-east coast near Wick.

The disclosure was made on 19th March – the last day of the London sittings of the Australian Royal Commission into the conduct and management of the atomic weapons test programme in Australia in the 1950's and early 1960's.

The Ministry of Defence later confirmed the story. They noted: *"There was a proposal in the 1950's to carry out experiments in the Wick area involving the release of short-life radioactive material."*

However, this did not placate the people of Wick. One local resident – Bill Mowat, Chairman of the Wick Community Council – said *"I was horrified when I heard about the test plan. Whether they got the idea out of ignorance or what I don't know, but we belong to this country and have the same rights as anybody else."*



Bill Mowat is right. It is a scandal that anybody could even consider detonating a 'test' nuclear bomb. The people of Wick – and Scotland – have a right to know what other schemes were dreamed up, and then covered up, by the Government!

# PEARCE PULLS NO PUNCHES

**THE BIGGEST attendance at a Brighton Branch meeting for over four years heard Joe Pearce, Editor of the Front's monthly magazine *Nationalism Today*, speak at the April meeting.**

**'Those controlling the Media' was Joe's controversial topic and he didn't pull any punches in citing examples revealing the racial origin of a disproportionately large number of people who decided what exactly could be viewed by the British people.**

*Joe Pearce*

**Local Organiser John Broadley said that the size of the meeting was proof that the Front was at last making progress in Brighton and that activities were being well attended by a growing number of members.**

**The meeting took place in front of a backdrop of a blue sunwheel on a red and white background which was designed and painted by local member Mr Bob John.**

**An additional collection at the end of the meeting for a Brighton toddler with leukaemia raised over £12.00.**

# 'CND Free Zone'

**THE EDMONTON Gazette of March 28th reports;**

*"Enfield has been declared a 'CND-free' zone by the local branch of the National Front.*

*At their March meeting branch spokesman Gareth Pugh said: "The unsightly rash of CND slogans, graffiti and posters will be removed. They are an eyesore and also criminal damage".*

*The National Front disrupted a meeting of the Enfield Peace Campaign attended by Monsignor Bruce Kent this month. The NF halted Mr Kent's speech by heckling from the back of the hall.*

*Mr. Pugh called for all members' support to stress the Front's policy for an independent British deterrent and vowed that there would be more anti-CND anti-Cruise Missile events in the near future".*

# NF NEWS Diary

**ANOTHER 'Anne Frank' type diary has been found in a wall of a building in central Amsterdam.**

**It purportedly describes the 'life in hiding' of a 13 year-old Jewish boy, Henry Robinski in an attic of a night-club in the city during the Nazi occupation of Holland.**

**Let's just hope this one isn't written in biro!**

★ ★ ★

THE latest darling of the Tory 'Right' is Edwina Currie, MP for Derbyshire South. The loquacious Mrs Currie regards herself as a female Alfie Sherman (of Aims of Industry fame) and can frequently be observed strutting up and down the boards at meetings of the Federation of Conservative Students' exposing yet another 'Red under the bed'.

Mrs Currie also has a racial bond with Mr Sherman. She was born Edwina Cohen, daughter of an orthodox Jew. She took classical Hebrew at O Level and in a recent interview said that she appreciated the advantages of belonging to a Jewish family. She also announced that she found her Jewishness significant, although what she meant by this she didn't explain.

What didn't need explaining was the fact that her two favourite MP's were Leon Brittan and Nigel Lawson.

*Well they had to be didn't they!*

*THE* **Financial Times** *of April 9th reports that Soviet officials have removed 'coal workers' leader Ivan Belousov from his post.*

*Mr Belousov was responsible for organising a fuel embargo against Britain last year in support of our Miners' Strike.*

*So much for the Kremlin's solidarity with the workers, and I wonder how Britain's numerous revolutionary left-wing organisations will be viewing the news?*

★ ★ ★

**DURING a Sinn Fein rally outside Armagh jail Maire McCrory of Belfast referred to the RUC as 'Black Bastards'. Now this upset a group of black feminists from London also attending the rally who found the remarks 'racist and deeply offensive'.**

**Ms McCrory said she meant no offence but had just wanted to use the worst possible terms to describe the RUC.**

**In a way I kinda know what she means!**

I AM able to reveal why the public gallery at Lewes Crown Court broke out into laughter, groans, cries of anguish and sighs of disappointment during the summing up by the prosecution council in the case against our own *NF News* editor.

The outburst has caused much intrigue in local newspapers and on Radio Sussex.

Well, prior to the start of the second day of the proceedings, NF Members attending had run a sweepstake on the amount of time it would take the prosecution barrister to introduce Jews, Nazis and the Holocaust into the case.

With Mr Solley lasting out a full 19 minutes 34 seconds before mentioning those inevitable words, the atmosphere in the gallery was electric and the winner, a young man from Worthing just couldn't contain his delight in having scooped the £12.00 kitty.

# Bleeding the NHS to death

**UNDER THE TORIES, the National Health Service is bleeding to death. At the last general election Mrs Thatcher promised: "The NHS is safe in my hands".**

*– But what has happened since then?*

Prescription charges have risen! Hospitals have closed! Wards have been shut down! Health workers have been thrown on the dole, and waiting lists have reached record levels.

The Tories are intent on making 'savings' in the NHS budget. But the NHS is already underfunded. We presently spend 5½ per-cent of our Gross National Product on the health service. This compares with France and Germany's 8 per-cent, the USA's 9½ per-cent and Sweden's 10 per-cent.

## RELY ON THE NHS

It's alright for Thatcher and her ilk. They can afford to have private medical treatment, but for the millions of ordinary British people who have to rely on the NHS, it's a completely different story.

Due to the Tories' NHS cutbacks they will have to pay higher charges, wait longer for medical treatment and in some cases face premature death.

**Here are just a few examples of how the Tories are murdering the National Health Service:**

## PLEDGE

* During the 1979 General Election Mrs Thatcher made a pledge to the British people. "We have no intention of raising prescription charges" she promised.

The passage of time has turned this pledge into a cynical lie – for since the Tories came to power the cost of prescriptions has risen by 1000 per-cent. Indeed, NHS prescription charges have just shot up from £1.40 to £2 per item.

Thatcher has also increased the cost of dental treatment. Costs have risen from £14.50 to £17. Additionally, patients are now liable to pay a further 40 per-cent of any other charges. This means that a bill for three or four fillings could easily top £22 or more. If you need to have more extensive treatment you will have to dig deeper into your purse or pocket. Having a tooth capped will cost you £63.

The Tories have also partially privatised opticians. Now only children under 16, people who need special glasses and those on social security will be able to get spectacles on the NHS. Others will have to go to private manufacturers and will consequently have to pay more. Even if you can still receive lenses on the NHS it is going to cost you extra. A complex single vision lens now costs £29 – a rise of £17,25. And the price of a complex bifocal lens has just risen from £18.80 to £50.

## SHORTAGE

* Babies are dying because of lack of equipment and a shortage of trained staff in neo-natal intensive care units.

This was just one of a number of grim findings in a survey published by charity BLISS (Baby Life Support Systems).

The survey revealed the lack of funds caused by NHS cutbacks is resulting in thousands of premature babies dying in each year. Nearly 30 per-cent of neo-natal intensive care units do not possess enough ventilators – vital pieces of equipment which help babies to breathe.

The survey also showed that a majority of units have to rely heavily on charitable donations to keep going. Nearly 60 per-cent had ventilators provided by a local voluntary group, while 11 per-cent had no NHS-funded ventilators at all.

These problems are compounded by a shortage of trained staff due to unattractive NHS wage levels. As Professor Reynolds of University College Hospital, London, points out: *"On a salary of £5,000 – £6,000 a year, trained people are unlikely to choose to work in Central London."*

## LETTING PEOPLE DIE

* GUY'S HOSPITAL in London, which was recently ordered to stop operating on heart patients, will also have to cut back on kidney dialysis because of a lack of funds.

Health Minister, Kenneth Clark, has told Guy's that since it has exceeded its budget by more than £1 million it will have to stop treating new patients who suffer from kidney disease.

*Kenneth Clark.*

The result of this will be that existing wards and equipment will lie unused and doctors will be underemployed, while patients die or become handicapped through lack of care.

A few patients may be able to receive treatment elsewhere. But the majority will certainly be unlucky as there is a national shortage of dialysis beds. Each year about 2,000 people whose lives could be saved, die of kidney disease.

By these cutbacks the Tories hope to save £500,000 over the next ten years. But there is a price to be paid in human lives in order to make these financial savings. And as Dr Chisholm Ogg, renal physician at Guy's says: *"The only way you can save money is by letting people die."*

This, then, is the sorry state of the National Health Service. The Tories seem more interested in cutting the taxes of the rich and in wasting billions in overseas aid than in adequately funding the NHS.

**In contrast the National Front believes that it should be one of the first priorities of a government to provide for the health and welfare of the British people. This means putting sufficient money into the NHS to get all the equipment that is needed, in paying decent wages to attract the best staff and in ensuring that all NHS facilities are absolutely free to every British citizen.**

## *"We have no intention of raising prescription charges"*

# GOD SAVE AMERICA

*VIOLENT crime in American cities has reached such proportions that police officers are being forced to wear 'Body Bunkers' when they go out on patrol.*

*A Boston policeman displays the device which allegedly deflects fire from a variety of weapons.*

# Meeting goes to pieces over jigsaws

A PUBLIC meeting organised by a group calling itself *'Palmers Green Against Racism'* ended in chaos with ordinary members of the public chanting National Front slogans and singing *'Rule Britannia'* after speakers on the platform had accused teachers in Enfield of being racist.

Ms Sylvia Callicott, a member of the Multi-cultural Education Unit of Haringey demanded that more black teachers be employed in Enfield *"racism within the education system must be attacked at all levels. Teachers in Enfield schools are being racist without realising it".*

Despite howls of disapproval from those in the audience, Ms. Callicott went on to denounce jigsaw puzzles and maths text books as racist. This was too much for a large number of those in attendance who stood up to complain and were promptly attacked by members of the Socialist Workers Party who were acting as stewards. Chaos reigned until the protestors left singing their defiance as they went.

# Making use of Rubbish!

KEITH MACE from New Buckenham in Norfolk is behind an ambitious community recycling project – the first of its kind in East Anglia.

Bottles, newspapers, scrap metal and other unwanted items will be collected by volunteers in seven local villages and taken to a central depot. They will then be sorted out and sold to raise funds for local community projects.

When the operation is fully functional – in about a month's time – Keith Mace envisages that it could raise several hundred pounds a year. He also thinks that local jobs could be created as well.

Once the items had been collected and sorted, Keith would *"sell them to wastepaper, scrap metal and glass firms."*

## LOCAL SCHEMES

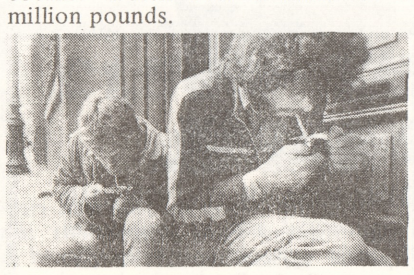
The money would then *"go into a central fund for distribution to local schemes, such as repairs to a church tower or buying a computer for a village school."*

Keith Mace has clearly shown the way to reduce waste, pollution, create jobs and help the local community. He has also demonstrated that if local council's can't – or won't – help local people, then they must do things themselves. You either help yourself – or you remain helpless!

# COCAINE: A NEW FEAR

**IN AMERICA last year 438 people died officially as a result of using Cocaine, 10,577 were admitted to hospital for "emergency treatment", the real figures are likely to be much higher. In Britain cocaine is now flooding into the country in ever-increasing quantities.**

Mainly grown in South America it is being shipped into Spain, our new Common Market partner, from where it is distributed to France, Germany, Italy and Britain. On Monday 25th February Scotland Yard's Drug Squad raided a Luxury West End flat and found cash and cocaine worth over a third of a million pounds.



Yet this is just the tip of the iceberg, heroin and many other drugs are becoming almost as freely available to youngsters as ice cream. The effect is vastly different: addiction comes quickly, mental faculties are impaired, depression becomes an everyday nightmare and suicide is often the easiest way out.

## SACRIFICIAL LAMBS

Once the drug arrives in this country it is distributed through a criminal network that is prepared to use our children as sacrificial lambs in their pursuit of money and power. Getting our children hooked on such drugs is often only the start of their corruption which leads to prostitution, child perversion, robbery and murder.

**This year the government has launched a campaign against addiction aimed at educating our children about drugs and this is to be applauded. But the government has shrunk back from the most effective way of dealing with this insidious evil and that is to hang any member of the criminal fraternity who takes any role in this terrible trade.**

# HOUNSLOW SOCIAL

*NF NEWS* editor Martin Wingfield was the guest speaker at the April meeting of the Hounslow Branch of the National Front.

Speaking on the establishment's attempt to link the Front with soccer violence, he exposed some of the blatant lies used recently in the media to smear the NF.

Hounslow Chairman Phil Andrews briefed those present on how the branch was becoming more involved in local activities while Organiser Bob Inglis announced that a recent Hounslow social had been attended by over 100 supporters and been a great boost to the branch in terms of finance and morale.

# EXHIBITION VISITS BY HERITAGE GROUP

THE National Front's Heritage Group, formed during March, held its first activities during April.

At the beginning of the month Heritage Group members visited the Renoir Exhibition on London's South Bank. They had the opportunity of viewing paintings by one of the greatest of all the French impressionists, gathered together for the first time ever in this country. It really was a chance in a lifetime experience to be able to see masterpieces from galleries as far apart as New York and Moscow, Warsaw and Peking all under one roof.

At the end of April Heritage Group members visited the British Landscape Watercolours Exhibition at the British Museum. Artists whose work was on view included such giants of British Art as Constable and Turner.

**These two activities by the newly formed Heritage Group reflect the National Front's awareness of our British and European Cultural heritage. The National Front is as determined to protect our unique cultural heritage as we are to protect our racial heritage.**

# STANDING OUR GROUND

**ON MONDAY afternoon of April 15th four members of Newcastle National Front were selling *NF News* on Northumberland Street in Newcastle City Centre. No mean achievement since not so long ago this was a totally Red sales pitch.**

**After a relatively peaceful half hour a dozen Militant supporters approached the NF lads while unknown to the young Geordies another six or so took up position on the other side of the road.**

**Obviously feeling confident that the numbers were in their favour the Red degenerates then began their usual routine, pushing and threatening. One of their number then made the rather silly mistake of throwing a punch, maybe he had been affected by the heat or felt that three to one were realistic odds.**

**In the words of Geordie Organiser Colin Todd "it was then that all hell broke loose", he admitted later that if he had realised beforehand what the odds really were he might not have been so keen on the idea of 'robust self-defence'.**

*Colin Todd Newcastle NF Organiser*

## BLOODY NOSES

**After half of the twits who made up the 'Red Army' had fled, the rest lay around on the pavement nursing bruised ribs and bloody noses. The NF contingent then picked up their papers and disappeared into the crowd accompanied by cheering and shouts of support from a large group of labourers on a nearby building site which overlooked the scene.**

**This attack made the local news on both radio and T.V. and on the next local activity no less than forty local supporters and youngsters turned up wanting to lend the National Front more than moral support!**

3. To develop a network of contracts within Tyne and Wear and involve them in the work of the Association;

# TORIES PUT PROFIT BEFORE PEOPLE

PUBLIC TRANSPORT, which has painstakingly evolved over the last 15 years, is to be destroyed within 12 months by this Tory Government's cut in subsidising the bus industry prior to selling it off to the private sector.

The selling off of the National Bus Company, the 'putting out to tender of municipal bus services and the removal of the principle of cross subsidy whereby profitable bus routes pay for the unprofitable ones, will have catastrophic effects on a vast number of British people.

*Routes linking towns and villages in rural parts of Britain will cease to exist, cutting off communities and isolating those who make their living in the countryside.*

**The elderly and disabled will become prisoners in their own homes. At present one in five people who make a bus journey are pensioners. Will the private bus company owners, in the business of making money, be giving free or cut price travel concessions?**

*25,000 jobs will in the bus industry.*

**Sunday services will cease to exist.**

*Fares will go up and safety standards will drop.*

The selling off of British owned industry in whatever field means only one thing. British people are sacrificed in the search for profit.

**The National Front believes that public transport should be, like the health service, there to serve the British people. Public transport is a social service not a profit-making concern.**

# NF 5-A-SIDE SOCCER TOURNAMENT

THE SECOND NF annual 5-a-side championship will take place during the afternoon of SATURDAY 15th JUNE, starting from 12.00p.m. In addition to the 5-a-side championship, refreshment stalls and side-stalls will also be included, and the day will finish with an early evening bonfire and barbecue.

The winning 5-a-side team will receive the championship trophy, plus each team member will receive a specially engraved winners 'gold medal'. The losing finalists will receive the 'runners-up' trophy, plus an engraved 'runners-up' medal each.

Entrance to the 5-a-side championship will cost £5.00 per team (£1.00 per person). In order to make the provisional first round draw and championship groups it is necessary for all units wishing to enter one or more teams to notify us in advance of the number of teams they wish to enter, the name(s) of the team(s).

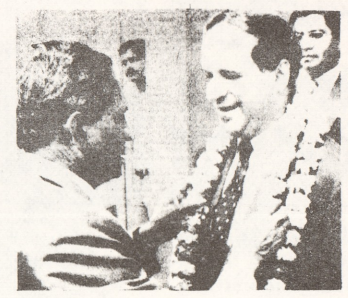
# ...while THEY GROVEL FOR THE ETHNIC VOTE



**TORY, LABOUR AND Liberal politicians are becoming masters in the art of grovelling for the ethnic vote.**

**They don't seem to care to what depths they sink or to what lengths they go to pandering to the ethnic communities in the hope that in return, come General Election time, they will get that immigrant vote.**

**In 1978 Margaret Thatcher said she acknowledged the fears of the British people that they were being swamped by coloured immigrants. April 29th 1985, the same Mrs Thatcher launched a massive Tory campaign to win the immigrant vote.**

**Labour's Shadow Home Secretary, Gerald Kaufman, has repeatedly announced this year that Labour will do away with all immigration controls. Any Commonwealth immigrant who wishes to,will be encouraged to settle in Britain.**

**The Liberals have always had the same 'open door' policy. Unlimited coloured immigration into Britain.**

**The coloured immigrant vote could decide the next election. Tory, Labour and Liberal politicians are prosituting themselves and their principles in an effort to win that vote.**

# WE STAND UP FOR THE BRITISH!

**THE NATIONAL FRONT pledges to put the British people FIRST in JOBS, HOUSING, EDUCATION and WELFARE.**

**The National Front also pledges to stop coloured immigration and return those coloured immigrants resident in Britain to their country of ethnic origin.**
